TO: John Colletti. EPA [WN-161]

FROM: Ex. 6 Personal Privacy (PP)

SUBJECT : Public hearing NPDES permits to discharge into waters of the waters of the United States.

Dear Sir -

The Clean Water Act should apply to everyone - no permits allowing exceptions should be issued - Table action for 2 years !...and issue progress reports quarterly to the public!

Presently there is a very important request by GTAC STATING THE NECESSITY FOR "BULK SAMPLING" & ENVIRONMENTAL SCIENTIFIC DATA TO DETERMINE THE SAFETY OF THE WATER STANDARDS ASSOCIATED WITH MODERN TACONITE MINING to verify the viability of perhaps 100 years of \$1.2 billion annual economic impact to the 12 counties in my region of Northern Wisconsin AND STILL HAVE "CLEAN WATER".

The EPA SHOULD TABLE for TWO YEARS the ISSUING of THESE PERMITS UNTIL AFTER SCIENTIFIC DATA IS OBTAINED AND VERIFIED BY APPROPRIATE STATE & FEDERAL AGENCIES - there exists a possible \$100 billion reasons for the future of Wisconsin & America to table this important decision for 2 years !

PLEASE ADVISE -
